

Position: Sr. Manufacturing Scheduler – Hartford, CT

We are seeking a Sr. Manufacturing Scheduler. Candidates should have a thorough understanding of manufacturing process scheduling and practical knowledge of means and methods. Must demonstrate experience reviewing CPM schedules and Time Impact Analyses. Applicants should have excellent written and oral communications skills with experience producing presentation graphics.

MOCA Systems, Inc. provides innovative program and construction management services to clients around the world using MOCA's advanced technology. Established in 1999, MOCA is a leading owner's representative firm providing program and project management services nationally. We embrace a vision to help our clients transform the way their complex projects are planned, designed, built, and managed.

Qualifications you will have if you are a great candidate:

Required Experience:

- 4-year B.S. degree in industrial management or engineering.
- 10 years of experience in the high-tech manufacturing.
- 5+ years of project scheduling experience and demonstrated proficiency with Primavera P6, Acumen Fuze, MS Project, MS Excel and MS Word.
- Demonstrated experience creating and maintaining process schedules using Primavera P6.
- Demonstrated experience preparing Integrated Master Schedules, Dashboards and Earned Value Management reviews.
- Demonstrated experience preparing graphics based presentations.
- Must be a U.S. Citizen – Green Card (Permanent Resident) or Work Visas status is not acceptable.

Preferred Experience:

- Previous experience with jet engine manufacturing.
- PSP, EVP, PMP, CCM, or PE certification.

Candidate must be able to perform the typical duties and responsibilities this job which requires:

- Ensure all deliverables are completed on time and within budget.
- Solid organization, planning, collaboration, and leadership skills.
- Communicate clearly, both verbally and in writing, with a wide variety of technical professionals.
- Effectively coordinate and work independently with the client and stakeholders to accurately identify and capture project requirements.
